

ATOLE LOCO

Cumbia / Ska / Latin Rock

Atole is a Mexican hot beverage made from corn, which can be enjoyed in Latin America in many different flavors on any corner. The Freiburger band **Atole Loco** has just made this colorful variety their program: **Atole Loco** means danceable cumbia, fiery ska and Latin rock. **Atole Loco** is grounded on Latin American rhythms to provide limitless fun on stage!

Inspired by the sound of bands like Panteón Rococó, Chico Trujillo and Fabulosos Cadillacs, the seven-member band with international roots (Mexico, Colombia, Peru, Spain and Germany) delivers an explosive program that inevitably invites to dance.

Much has happened since the first concerts in bars and clubs (2016) in Freiburg and the surrounding area: In the spring of 2018, Atole Loco won the Audience Award at the Freiburger Bandcontest Rampe and made second place overall. Great concerts such as at the Osthafenfestival Frankfurt and the Zelt-Musik-Festival Freiburg followed. At the beginning of 2019 the first album of the band will be released: "Atole Loco" (recorded in the Amp's Factory Studios Freiburg) - let's see where their path leads them next!

!Más Atole por favor!
